## EDUCATION

### Specialisation Course in AI and Big Data

IES de Teis  
2021 - 2022

### Multiplatform Application Development

IES LEliadoura  
2019 - 2021  
Honors Degree

### Degree in Physics

University of Valladolid  
2014- 2018  
Unfinished

## LANGUAGE

Español  
Gallego  
Inglés

## ABOUT ME

I am a person with great initiative, who likes to bring new ideas to help improve the level and quality of work.

With a lot of ambition and desire to work to grow as a professional.

## WORK EXPERIENCE

- **Machine Learning Developer** Oct 2022- Present  
Antexia Technologies S.L.  
Researcher in the field of computer vision, focusing on the development of imaging algorithms and the generation and deployment of pipelines for processing video streams.
- **Machine Learning Researcher** Sept 2021 - Oct 2023  
Gradient  
Researcher in the field of computer vision, focusing on the development of image algorithms for detection, classification and segmentation. As well as the implementation and deployment of the same.  
  
Development of applications and APIs for the management and interaction of the models.  
  
Leadership in best practice methodologies and in the coordination of AI infrastructures for the different projects.
- **Full Stack Developer** Apr 2021 - Sept 2021  
Coremain  
Development of web applications with Angular and Typescript and APIs in .NET for the management of data and the automation of processes.

## EXPERTISE

Python	Pytorch	Docker
C++	TensorFlow	Kubernetes
C#	OpenCV	FastAPI
Java	CUDA	SpringBoot
